Ontario-Montclair School District Hosts Robot Rally

It's time for battle! On Saturday, April 27, 2019, over 350 Ontario-Montclair School District (OMSD) students will come together from twelve different schools for the annual OMSD Robot Rally. Students will be engaged in testing out their robots against one another in a series of team competitions.

OMSD students have been working over the past several months to program their Lego Robotics to compete in several different robotics competitions including The Sumo Challenge, Follow the Line, and Obstacle Course. Other activities will be available, as well to encourage participants, spectators, and guests to explore STEM learning through Lego Robotics, computer coding, and hands on STEM learning experiences. All students, families, and guests are welcome to join students and staff for this exciting day of robotics competition and STEM learning at this year's OMSD Robot Rally.

"STEM innovation is now a part of our daily lives. We are so excited to bring this opportunity to the students of OMSD," stated Board President Elvia M. Rivas, "They are our future and the future begins now."

Let the battle begin! May the best robot win!

Location

Oaks Middle School
1221 S. Oaks Avenue
Ontario, CA
